

GRASSLANDS FLORAL LAWN®

Finding the perfect balance between aesthetics and functionality is crucial in lawn selection ...

Grasslands' Floral Lawn® is a unique blend of charming wildflowers and non-aggressive grasses that offers an unparalleled solution for creating captivating spaces that are both visually stunning and environmentally responsible.

Our carefully curated mix blooms with buttercups, daisies, low-growing clover and trefoil, creating a vibrant, pollinator-friendly lawn. Designed for reduced maintenance, it requires cutting only every 2-3 weeks, making it ideal for 'No Mow May' and beyond. This mix delivers a beautiful, family-friendly lawn that thrives in standard soil conditions.

Combining natural beauty with practical durability, Grasslands' Floral Lawn® is the perfect choice for those seeking a refined, low-maintenance option that adds an effortless charm to any project.

KEY FEATURES

Charming Aesthetic

A highly desirable, naturalistic mix of buttercups, daisies and low-growing wildflowers.

Eco-Friendly

Supports biodiversity by attracting pollinators, with no need for pesticides, weedkiller or fertilisers.

Versatile and Low Maintenance

The requirement to mow is far less frequent than conventional lawns. It's perfect for 'No Mow May' and year-round beauty.

Resilient and Family-Friendly

Capable of withstanding family activities without compromising its visual appeal.

Bulbous Buttercup	Ranunculus bulbosus
Common Bird's-foot-trefoil	Lotus corniculatus
Common Vetch	Vicia sativa
Daisy	Bellis perennis
Meadow Buttercup	Ranunculus acris
Red Clover	Trifolium pratense
Selfheal	Prunella vulgaris
White Clover	Trifolium repens

The established percentage of grass to wildflowers will depend on the maintenance regime. More frequent mowing will result in fewer wildflowers and conversely, less frequent mowing means the wildflowers will come to dominate.
