

GRASSLANDS SPECIES RICH TURF®

THE PROBLEM FOR CONTRACTORS

- The high cost of currently specified turf with wildflowers leads to substitution with on-site seeding and this has predictably poor outcomes.
- Developers are seeking an affordable, instant greening solution for sales areas and public open spaces, but they are moving away from using amenity turf to achieve this.
- BNG legislation is significantly boosting demand, requiring growers to ensure they can meet this increased need over the long term.

THE CHALLENGE

To produce an affordable, pollinator-friendly species rich turf that closely matches currently specified mixes, while avoiding the use of plastic reinforcement or imported growing mediums. Additionally, the turf needs to be supplied in easy-to-handle rolls rather than awkward slabs.

THE SOLUTION

Grasslands have pioneered the development of field grown turves containing wildflowers, using fine turf rolls as a carrier medium for the desired mixes.

Mechanisation has driven down production, harvesting and handling costs, reducing the purchase price for contractors.

Benefit from significant cost savings and secure contracts with our competitive rate of £7.75/m², plus delivery (both subject to VAT).

GRASSLANDS' SPECIES RICH TURF®

SEED MIX

SPECIES	DESCRIPTION	PERCENTAGE
<i>Centaurea nigra</i>	Common Knapweed	5%
<i>Ranunculus acris</i>	Meadow Buttercup	1%
<i>Linum usitatissimum</i>	Flax	1%
<i>Lotus corniculatus</i>	Leo Lotus Corniculatus	7.5%
<i>Medicago lupulina</i>	Virgo Medicago lupulina	3%
<i>Plantago lanceolata</i>	Ribwort Plantain	2%
<i>Galium verum</i>	Lady's Bedstraw	2%
<i>Trifolium repens</i>	Aberlasting (small/medium)	7.5%
<i>Prunella vulgaris</i>	Self Heal	2%
<i>Achillea millefolium</i>	Yarrow	1%
<i>Silene dioica</i>	Red Champion	0.4%
<i>Silene alba</i>	White Champion	0.4%
<i>Filipendula ulmaria</i>	Meadow Sweet	2%
<i>Agrimonia eupatorium</i>	Agrimony	8%
<i>Leucanthemum vulgare</i>	Oxeye Daisy	3%
<i>Onobrychis vicifolia</i>	Sainfoin	6%
<i>Malva moschata</i>	Musk Mallow	1%
<i>Vicia sativa</i>	Common Vetch	2%
<i>Digitalis purpurea</i>	Foxglove	0.75%
<i>Trifolium pratense</i>	Red Clover	1%
<i>Daucus carota</i>	Wild Carrot	0.75%
<i>Stachys officinalis</i>	Betony	0.5%
<i>Rhinanthus minor</i>	Yellow Rattle	3%
<i>Agrostemma githago</i>	Corncockle	5%
<i>Papaver rhoeas</i>	Corn Poppy	0.2%
<i>Centaurea cyanus</i>	Cornflower	3%
<i>Anthemis arvensis</i>	Corn Chamomile	0.5%
<i>Chrysanthemum segetum</i>	Corn Marigold	2%
<i>Anthriscus sylvestris</i>	Cow Parsley	0.5%
<i>Sanguisorba minor</i>	Salad Burnet	1.5%
<i>Lathyrus pratensis</i>	Meadow Vetchling	6.5%
<i>Anthoxanthum odoratum</i>	Sweet Vernal Grass	5%
<i>Trisetum flavescens</i>	Golden Oat Grass	5%
<i>Phleum bertolonii</i>	TENO	2.5%
Other species		7.5%

Grasslands' Species Rich Turf® is an 80/20 grass/wildflower mix, but as a natural product, some species may not survive or thrive under certain local conditions. Due to the nature of wildflower seed availability the species mix may be subject to change without prior notification.
